SRA OSS, INC.

Driving business solutions through innovative technologies

ADVANTAGE Virtualization Services
for DATA CENTERS & CLOUD INFRASTRUCTURES

SRA OSS offers advanced services to help consolidate and migrate the current Server and Application infrastructure to the next generation of Virtualization in data centers for Enterprises and Managed Service Providers. These offerings are called ADVANTAGE services developed based on unique and proven methodology for our customers.

SRA Desktop Infrastructure Assessment

Overview
- The VMware Desktop Infrastructure Virtualization Assessment will identify both the users and desktops, which are the best candidates to move into a virtual desktop environment, and the order in which those user groups and desktops should be virtualized for a successful desktop virtualization initiative.
- By identifying both the users and desktops, which are the best candidates to move into a virtual desktop environment, and the order in which those user groups and desktops should be virtualized we ensure user satisfaction and project success.

Deliverables
SRA OSS will deliver a formal assessment report for desktop virtualization (VDI) implementation including:
- Inventory and applications summary.
- VDI infrastructure requirements.
- Policy and environmental changes required by VDI.
- High-level VDI implementation scenarios.
- A TCO/ROI analysis.
- Recommendations for next steps.

Objectives
- Determine your specific requirements and goals for desktop virtualization.
- Understand the existing physical infrastructure including servers, network, storage, and any existing virtualization implemented.
- Understand the types of desktop users, workflow, applications in use, corporate policies related to workstations and user expectations.
- Develop a recommended approach for optimal VDI implementation.

Format
- Installation of assessment tools.
- Collection of assessment information.
- Off-site analysis of data collected from environment.
- Delivery of formal assessment documentation and proposal.
- Up to two on-site visits for assessment tools installation and data collection.
- Up to one on-site visit to deliver presentation and proposal.

ADDITIONAL SERVICES

Data Center Services
- Planning
- Design
- Deployment
- Architecture
- Operations
- NOC Support
- Multi-Vendor Support
  - Cisco
  - HP
  - IBM
  - ORACLE
  - EMC
  - VMware

Business Processes
- Policies and Standards
- Risk and Compliance
- ITIL and ITSM

Security Services
- Vulnerability Assessment
- Remediation

Virtualization
- Consolidation
- Migration

Disaster Preparedness
- Backups
