

ADVANTAGE Virtualization Services

for DATA CENTERS & CLOUD INFRASTRUCTURES

SRA OSS offers advanced services to help consolidate and migrate the current Server and Application infrastructure to the next generation of Virtualization in data centers for Enterprises and Managed Service Providers. These offerings are called ADVANTAGE services developed based on unique and proven methodology for our customers.

SRA P2V Fast-trak Service

Overview

- This 2-day workshop introduces a proven methodology for migrating existing physical servers into the virtualized environment. It also covers moving VMs across different platforms.
- Up to 4 days on-site.
- Maximum 5 participants.
- Up to 4 physical servers converted (P2V) to virtual.

Objectives

- Provide a guided tour of VMware Converter capabilities
- Present procedures and best practices for P2V migrations
- Conduct a test migration of a machine
- Facilitate discussions to help you understand VMware Converter functionality and usage as part of an introductory planning session

Format

- Presentation
- Guided tour of VMware Converter and VMware web resources
- White boarding and Q&A
- Test migrations

Technical Requirements (for Test Migrations)

- Running VMware platform for use to perform test migrations
- Hosted: VMware Workstation or VMware Server – or
- VMware vSphere 4.x with vCenter 4.x
- New VMware virtual machine (VM) running Windows 2003
- Test Windows machine for migration practice - May need to bring down temporarily

This consulting engagement does not include any VMware licenses. An existing vSphere environment is required.

ADDITIONAL SERVICES

Data Center Services

- Planning
- Design
- Deployment
- Architecture
- Operations
- NOC Support
